## Deck 1 Skills Checklist

### Deck 1 Requirement 2: Checklist and endorsements. Details:

Completing the skill set checklist requires an underway check cruise (see scheduling key) where the crew member demonstrates checklist tasks under the supervision of an appropriate crew member (Mate or Bosun). Several positions have tasks which may be performed while dockside. Scheduling a check cruise must be coordinated through the Port Captain.

It is necessary that each candidate review the skill checklist for the position they would like to advance to and familiarize themselves with those requirements.

Approval Authority Directions: If the candidate successfully demonstrates/completes/performs the skill to your satisfaction, please print your name, sign your approval, and record the date.
